

Features:

- 1. UL safety verified
- 2. Plate module and angled module for choices
- 3. Front loaded and tool free installation

Applications:

- 1. Customized colors are available
- 2. Designed for voice, data, fiber, video and audio modules
- 3. Front Access specific multi-media modules

Surtec presents the 2031D series of Front Access Faceplates for your multimedia applications. Data, fiber, video, audio and self assembling modules can be inserted based upon your application.

Features / Applications:

1. UL 1863 Safety Listed
2. UL94V-0 fire retardant plastic
3. Surtec's Front Access Modules snap right into position
4. Designed for voice, data, fiber, video and audio modules

Surtec's Front Access Modular system is designed to use multiple voice, data, fiber, video and audio modules in an efficient manner to satisfy your customers needs.

Surtec's "Front Access Faceplate" is a user friendly faceplate. It is easy to install and remove. Bezels can easily be released using a screw-driver without unloading the rest of the bezels or removing faceplate.

Surtec's multi-functional front access box can be set for data, fiber or audio/video combination depending upon your applications. This box offers module termination, jack termination and wire management by its special design.

Features / Applications:

- 1. UL 1863 Safety Listed**
- 2. UL94V-0 fire retardant plastic**
- 3. Customized colors available**

• Modular type Jack

Step 1.
Insert the wires into their correct positions based upon the color code.

Step 2.
Terminate the wires using an impact tool.

Step 3.
Align the edges of the module and the box and then slide the module into the slot.

• Snap-in Type Jack

Step 1.
Put a standard applied jack along the corner of the installation set.

Step 2.
Terminate the wires by dual tools.

Step 3.
Insert the standard jack into blank Front Access module for setting.
