QUICK TOOL NE SOLUTION

1005W2-NE

Termination

- 1.Strip off at least 1.2 inches of the jacket from the cable.
- 2.Press the wires through the projecting portion of terminals until they are fixed.
- 3.Put the NE jack into the NE tool, following the guide.
- 4.The tool adapts for both right-and-left-handed users.

- 5.Make sure the NE jack is fixed onto the NE tool.
- 6.Squeeze the handles of the NE tool to terminate the NE jack and cut extra wires.
- 7.Place the cap on the NE jack and press to make sure it is fully seated.
- 8.Termination completed.

Cutting Module

Handle Lock
